Ms. Ref. No.: IJPara15_020R2
Title: First isolation of a new species of Leishmania responsible for human cutaneous leishmaniasis in Ghana and classification in the Leishmania enriettii complex
International Journal for Parasitology

Dear Prof. Bates,

I am pleased to confirm that your paper "First isolation of a new species of Leishmania responsible for human cutaneous leishmaniasis in Ghana and classification in the Leishmania enriettii complex" has been accepted for publication in the International Journal for Parasitology.

For every issue of the IJP the Editor will endeavour to feature an image on the cover from, or relating to, an article in that issue. We invite all authors to submit images that would be suitable. To maximize their aesthetic qualities, these images may be stylized/modified versions of pictures or diagrams from the author's article.

The Editor will choose the image that is the most eye-catching and informative for each issue and complements those chosen for recent issues.

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit http://www.elsevier.com/audioslides.

Thank you for submitting your work to this journal.

Yours sincerely,

Brian M Cooke, Ph.D.
Editor-in-Chief
International Journal for Parasitology
