Subject: Your Submission

Ms. Ref. No.: INFORG-D-13-00089R1
Title: Variability in the Use of Mobile ICTs by Homeworkers and its Consequences for Boundary Management and Social Isolation Information and Organization

Dear Donald,

I am pleased to confirm that your paper "Variability in the Use of Mobile ICTs by Homeworkers and its Consequences for Boundary Management and Social Isolation" has been accepted for publication in Information and Organization.

Obviously, you have taken advantage of the extended time given to revise your paper, and I find it very carefully prepared and presented. The paper makes a modest, yet important, contribution to the boundary management and mobile technology discourses, insofar as self-employed homeworkers has been neglected. By focusing on this sample, you reveal interesting and, for me, counterintuitive findings in which such workers become more mobile than usually thought. The methods and theoretical foundations are clear as well.

Purely as a tangential point, many of the references supplied in the previous round of review were drawn from a now-published article that you may wish to consider in future papers that use your sample (your larger study). The reference is:

Cousins, K.C., and Robey, D. "Managing Work-Life Boundaries with Mobile Technologies: An Interpretive Study of Mobile Work Practices." Information Technology & People, 28 (1), 2015, 34-71.

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit <http://www.elsevier.com/audioslides>

With kind regards, DAN

Daniel Robey
