

# Shoreline Management Plans and Coastal Adaption

Short Term - 20 Years		Medium Term - 60 Years		Long Term - 100 Years	
Look at the Shoreline Management Cards (SMPs).	Which ones will you choose for the timeline of 20, 60, and 100 years? Is this the right decision?				
How do the coastal interventions fit within the timeline of 20, 60, and 100 years?	Is this the right decision? Look at the design life on each card, how long will they last ?				
					 <b>OUR FUTURE COAST</b>

Adapted from Dr Joseph Earl, Lancaster University.
